N. England Truss Manufactory
JAMES FREDERICK FOSTER,
MANUFACTURER OF
Ratchet and Spiral Trusses,
457 Washington Street, 457,
BOSTON.

ALL the various approved trusses constantly for sale. Ladies waited on by Mrs Carr. ...D FOSTER who has had twenty years experience in the business. ... [illegible]

Ladies waited upon by Mrs Caroline D Foster at the above place.

The following certificate from Dr John C Warren of Boston was given 16 years since, but will ... forever.

Boston January 7, 1836.
Having had occasion to observe that some ... afflicted with Hernia have suffered much from the want of a skilful workman in accommodating Trusses to the peculiarities of their cases, I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr. Beath. After some months of observation of his work, I am well satisfied that Mr Foster is well acquainted with the manufacture of these instruments and ingenious in accommodating them to the variety of cases which occur. I feel called upon to recommend him to my professional brethren, and to the public as a person well fitted to supply their wants in regard to these important articles.
JOHN C. WARREN, M.D. Boston.

CERTIFICATE. The following certificate is from Professor Stuart, of Andover Theological Seminary.
The undersigned having occasion to employ Mr Frederick Foster, of Boston, in making and fitting Trusses for the relief of Hernia, takes great pleasure in recommending him as the favorable notice of such persons as may be afflicted with similar complaints. Mr Foster's success in the manufacture and adapting them to the body, ... ease and comfort to the wearer, surpass (as far as our experience goes,) any other manufacturer of the article.
The humerous testimonials which he has received, together with the recommendation of that eminent surgeon, Dr J C Warren, as a sufficient guaranty for all who may favor Mr F, that his instruments will give entire satisfaction, and he will ... all reasonable demands for an equitable compensation.
Andover, May 4, 1848. M. STUART.
The above Trusses for sale in Bangor by G. W. EMERSON, No 4 Smith's Block.

CITY OF BANGOR.
An Ordinance further providing for the regulation of the Police

SECT 1.—BE IT ORDAINED by the Mayor Aldermen and Common Council of the City of Bangor, in city council assembled:
That two or more Deputy Marshals shall, annually, in the month of March or April, and at such other times as vacancy may occur, be nominated by the Mayor and confirmed by the Aldermen, and shall be removable at their discretion, and shall each, before entering upon the duties of the office, be sworn as Deputy Marshal and give bond to the city with sureties to be approved by the Mayor and Aldermen in the sum of two hundred dollars for the faithful performance of the duties of his office and the obligations of this ordinance, whereupon said Deputies shall possess and exercise, under the direction of the City Marshal, all the powers now or hereafter vested in the same, and in his absence shall officiate for him in his stead, to take precedence according to the date of appointment, unless the Mayor and Aldermen shall prescribe a different rule, and shall hold their office, unless removed by the same, until others shall be appointed and qualified in their stead.

SECT 2.—Be it further ordained, that the compensation of the Deputy Marshals, who shall be appointed under this ordinance, shall be such sum as the City Council shall annually in the month of March fix and determine, which sum shall be paid out of the City Treasury in full for all services and fees as Deputy Marshals, Constables or Witnesses and other services, as hereafter provided.

SECT 3.—Be it further ordained, that the City Marshal and all Deputy Marshals elected under this ordinance, shall be Police Officers and exercise all the powers authorized by the act of the Legislature entitled "an act giving additional power to cities," approved June 15, 1850.

SECT 4.—Be it further ordained, that the City Marshal and Deputy Marshals shall each wear a Badge to be prescribed by the Mayor and Aldermen at such times when engaged in any official duty as they may direct.

SECT 5.—Be it further ordained, that the City Marshal and each Deputy Marshal shall quarterly and at such other times as the Mayor and Aldermen may direct, account for and pay over to the City Treasurer, for the use of the city all fees and compensation of every description, except his salary fixed by the City Council received by him for the performance of any official duty whether as Marshal, Deputy Marshal, Constable or in any other capacity, including all fees as witness in the Police Court and all other courts within the County of Penobscot: Provided that the foregoing provision shall not apply to proceedings in civil suits.

SECT 6.—Be it further ordained, that all the watchmen employed by the city shall be subject to all the provisions and conditions of the fifth section of this ordinance, in the same way and manner as are the Marshal and Deputy Marshals.

SECT 7.—Be it further ordained, that no payment of compensation or salary shall at any time be made from the City Treasury to the City Marshal, or any Deputy Marshal or Watchman, until such officer shall report in writing to the City Treasurer, an account in detail and under oath of all fees and compensation as specified in the fifth section of this ordinance, by him received since the date of his last report, or the commencement of his term of office, and of all sums due him for same, nor until such officer shall have paid and delivered to the City Treasurer an assignment of all amounts due him for all sums due him from the State or County Treasury, or other source for fees and services before herein required, and until said report, assignment and receipt shall be approved by the Mayor.

SECT 8.—Be it further ordained, that it shall be the duty of the City Marshal to ... report, prescribed by the sixth section of this ordinance, a statement of the way, manner and fidelity in which each particular Deputy Marshal and Watchman, shall execute the duties of his office, nor shall any quarterly report of said Marshal be approved by the Mayor which does not exhibit a substantial compliance with the provisions of this section. It shall also be the duty of said Marshal to bring to the notice of the Mayor and Aldermen all instances of neglect of duty or misbehavior in office, of said Deputy Marshals or Watchmen as soon as the same shall come to his knowledge.

SECT 9.—Be it further ordained, that all ordinances or parts of ordinances inconsistent with the provisions of this ordinance, be and are hereby repealed.

SECT 10.—Be it further ordained that this ordinance shall go into effect on the fourth Monday of March, A. D. 1853.

Passed March 7, 1853.

The truth of this statement can be verified by Mr W. P. England, Chemist 13, Market street Huddersfield.

A DREADFUL BAD BREAST CURED IN ONE MONTH.
Extract of a letter from Mr Frederick Turner, of Penshurst, Kent, dated December 13th, 1850.
To Professor Holloway
DEAR SIR—My wife had suffered from bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before healed an awful wound in my own leg by your unrivalled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.
(Signed) FREDERICK TURNER.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs	Corns (Soft)	Scalds
Bad Breasts	Cancers	Sore Nipples
Burns	Contracted and Stiff	Sore-throats
Bunions	Joints	Skin-diseases
Bite of Moschettoes	Elephantiasis	Scurvy
and Sand Flies	Fistulas Gout	Sore-heads
Coco-Bay	Glandular Swellings	Tumours
Chiego-foot	Lumbago	Ulcers
Chilblains	Piles	Wounds
Chapped hands	Rheumatism	Yaws

Whig and Courier.

John S. Sayward, Editor.

FRIDAY, MARCH 18, 1853.

CITY AFFAIRS.

IN BOARD OF ALDERMEN,
March 15, 1853.

The Committee appointed for the erection of High School House, respectfully report that they have performed the duty assigned them. The House erected under their supervision, is 60 by 80 feet, is two stories high, exclusive of the basement. The large room on the first floor is 48 by 54 feet, and is 15 feet high in the clear. We have placed in the room 143 single seats and desks, and should it be found necessary more can be placed in the room without inconvenience to the scholars. There is connected with this room a class room 17 by 25 feet.

The room on the second floor is 48 by 54 feet, 16 feet high in the clear. It has two recitation rooms connected with it, one of which is 30 by 15 feet, and the other, 14 by 15 feet. There is also a small room for a library and philosophical apparatus. There are 120 single seats and desks in this large room, and there is room for 30 more at least. There is a Teacher's desk in this room, and also one in each of the recitation rooms, and all the rooms on this floor are supplied with recitation seats and settees. The rooms on the first floor are furnished with desks for the Teachers.

The building is finished in a neat and plain style throughout. The hall 19 feet wide, and the whole length of the building. This room will always afford, in dull weather, a spacious and convenient place for the healthful exercise of the scholars.

In the outset, there was a departure from the original plan in relation to the cellar or basement. We were influenced by two considerations in making the alteration. By the original specifications the sills at the north east corner of the house, were to be five feet above the level of the ground at that point. This heighth would be at three feet below the surface of the street. A house of this size, thus located would not only offend good taste, to say nothing of the inconvenience of all the wash of the street, would find down to the house.

Another reason was, that by raising the sills a few feet, we could secure the advantage of an additional school-room. We accordingly decided to raise the sills of the house about three feet higher than was the original design. You were enabled to finish a room in the basement large enough to accommodate more than 100 scholars, and from 10 to 12 feet high in the clear. We feel assured that our fellow-citizens will coincide with us in thinking the advantages gained by this change, are more than sufficient to pay the additional cost of the building.

The care, at much pains in the choice of the heating apparatus. After many inquiries in relation to the best mode of warming, we adopted the Norcross Furnace, and entered into a contract with Messrs. Wood, Bishop & Co., to put them on trial, with the condition that if we were not satisfied with them, the Furnaces were to remain during the winter, and then the contractors were to take them out. The Furnaces are working to our entire satisfaction, we have given the notice agreeably to the conditions of the contract. It is apprehended that the Furnaces are somewhat injurious to the chimnies. We understand from the contractors that they will endeavor to keep the Furnaces in order, and answer in every respect. Perhaps, if you wish a further trial of the Furnaces, and to extend the time for that purpose, the Furnaces might be retained another winter. In this case we would suggest the propriety of having the smoke-pipes taken from the basement, and carried up through the lower room into the chimney. The Furnaces have not been paid for, and it is uncertain whether they will be retained. Should they be finally taken, their cost will be from $270.

Mr. D. T. Sawtelle was employed to erect the building under the direction of your Committee. He devoted himself to the work with perseverance and diligence. We believe that the carpenters work was done in a thorough substantial manner, and certainly done to our satisfaction.

Mr. Benjamin Wallis laid the brick and did the plastering. Mr. Wallis is reputed to be a good workman, and we think he executed his work well. There seemed however to be some defect in drawing out the chimney, as a part of one of them has fallen off. It is supposed there was a defect in the lime, as special pains were taken to do the work thoroughly.

The Desks and Seats were manufactured by Messrs. E. & A. Dole & Co. The desks consist of cast iron standards and cherry leaf. The seats have cast iron standards, basswood seats, and cherry backs. The workmanship is neat and durable. The first cost of this kind of furniture is more than those we have been accustomed to use in this place. But we think that in the long run, they will not be found more expensive than pine as they will not need a coat of paint but once in three or four years.

The upper room and hall leading to it, are painted and varnished; the lower room and hall painted and varnished.

Both the large rooms are thoroughly ventilated. At the examination of the Girls' School the room was filled to overflowing for the space of two hours. Not a window was dropped, and the air was pure. For comfort, convenience and health, we think these rooms will compare favorably with any school-room in the State.

The bills have all been paid. The whole cost of the house is $37194. The original appropriation was $7,300. Subsequently there was an additional appropriation of $1575. Part of the cost over and above the original appropriation, arose in consequence of the raising of the basement—say from $400 to $500 including the hauling of dirt and leveling off. The material for blank-boards and putting on, cost about $100. Alteration of stairs $75. Then there was the setting of the Furnaces, and the settees, &c. The settees cost $44. Several items might be named. Besides no one ever built a house by the day, at so small a cost as it can be done by the job. We have, undoubtedly, got a much better house, than if built by the job.

As it may be found convenient for future reference, we append a table showing the principal items of expenditure. We have no doubt this bill will be found of more interest to you than the other part of the report.

Respectfully submitted,

JOSIAH TOWLE, Chairman.

March 15, 1853.

In Board of Aldermen,
March 12, 1853.

Read and ordered to be placed on file. Sent down for concurrence.

E. L. HAMLIN, Mayor.

The principal items of expenditure on the High School House erected in 1852:

Carpenter's work by the day,	$1935 73
Lumber exclusive of Laths,	1821 39
Masonry including cellar and all materials,	1732 78
Slate and Slating,	362 75
Seats, Desks, Settees and lettering desks,	1089 26
Paints, Oils, Glass, &c.	321 61
Labor at Painting,	246 24
Doors and Sash,	136 46
Hard Ware,	284 01
Planing clapboards, boards, &c.	122 61
Timman's bill for conductors, &c.	45 87
Cast Iron Posts,	66 00
Wrought Iron rods, bolts, &c.	118 17
Laths,	92 93
Lathing,	65 75
Cement for Black-boards,	46 50
Plans and specifications,	65 63
Trucking, Hauling boards, &c.	61 89
Hauling dirt, leveling up, and various small items,	105 86
	$8,719 43

There is on hand, as estimated, about 40 gallons of oil.

Washington Gossip.

The Cabinet is diligently engaged in considerations of the proper policy to be pursued by the Administration in its intercourse with Foreign nations. The President is deemed liberal and progressive, while the members of his Cabinet will not prove obstinate in endorsing his sentiments. There is no charge of ultra conservatism against any one besides Mr. Marcy, who is said to be obnoxious to ardent Young America on that score. Col. Davis informs an anxious public, through the medium of a knot of hungry office-seekers, that he has no vacancies in his Department, but that the willing devotees will be called upon in case any of the present incumbents prove incompetent.

New appointments drag slowly; far too much so for the crowd which beset the President. It is said that the Ohio Deputation has received the rebuff direct from the Executive, while waiting upon him to suggest "worthy men" for office. The President refuses to grant them an interview.

President Pierce refuses to appoint any one to office as a Democrat who voted for Mr. Van Buren, in 1848.

The President has a way of his own, and will not submit to be bored when he can help it. The office-seking crowd has come to a sad pass, rejected at the Departments, and refused audiences with the Executive. The end is not yet

BEATRICE: OR, THE UNKNOWN RELATIVES. By CATHERINE SINCLAIR. New York: DeWitt & Davenport.

We have received from the prolific press of DeWitt & Davenport, through our mutual friend David Bugbee, a copy of the above named work. It is a religious novel from the graceful pen of the author of "Holiday House" and other popular works. The object of the work is to unfold the means and applinances by which the Jesuits capture individuals and families into their religious embraces. It is designed as a warning against the course of the Catholics. It is a story of much interest and is told with fine effect and in excellent taste and with a freshness, strength and beauty of language and imagery rarely excelled.

The publication and wide extension of this novel is approbated by many of the eminent Protestant clergymen of the country.

The book can be obtained at Bugbee's bookstore.

☞ The Hotel keepers in Boston are making an effort to raise the prices of both transient custom and permanent boarders. The high prices of most kinds of provisions make this course necessary. Butter is about the only article that is not much higher now than for a long time previously.

☞ The form of cravats for gentlemen has undergone a change in Paris; the stiff, high cravat is no longer worn. Those worn are not more than an inch and a half wide; some of the very young gentlemen turn down the shirt collar over the cravat, thus leaving the throat exposed.

☞ The brig Robertson, at Mobile, from Vera Cruz, on the 1st inst., reports having met the English steamer going in, with Santa Anna on board. Her colors were flying at the topmast.

☞ The editor of the Mercury upon a review of our telegram yesterday, will see that the name of Mr. Sewall does not appear in the list of nominees, but of those confidently reported to be made.

Boston, March 17.

An important Cabinet meeting was held Tuesday. It resulted, it is said, in directing the Secretary of State to demand an explanation from the government of Great Britain on the subject of the recent proclamations from Honduras. The Secretary of the Navy was also instructed to move forthwith in the matter of the lease of the disposal for spite opposition.

RAILROAD.

For the Whig and Courier.

MR. EDITOR:—Your paper of March 15th, contains an article under the head of "railroading" which, seems to make it a foregone conclusion that, the line of the Penobscot & Kennebec Railroad must go by the way of Newport, or the business interests of Bangor are irretrievably lost and ruined. In fact, that article so far regards that location as vital as to make it a *sine qua non*, preferring rather to see the whole project of a railroad from here to Waterville, entirely abandoned than to see the line made by way of Unity. I am not one of those who participate in such fears as are entertained by the writer of that article, and I propose to show in this communication some of the reasons which lead me to a contrary conclusion, and which to my mind, are satisfactory, that the true interests of all parties concerned, require that the proposed road should be built by way of Unity.

Before I do so, however, let me say, that the only *ostensible* reason which has ever been addressed, either to the public or to the Directors in favor of the line via Newport, is the selfish and pleasing one, that that line was to open a country whose trade already large and increasing, would at once be made *wholly tributary* to Bangor, and thereby of course add largely to the sales and profits of our merchants and mechanics, and that no other line of road could be made by which these interests could be thus promoted. This is proposed to be accomplished by sending a lateral road from Newport to Dexter.—Let us at this point inquire if we are not adding imagination to our reason, when we thus summarily conclude, that the Newport line is to do all these things, and no other things. Suppose we have a road from here to Waterville by Newport. The whole distance is fifty-five and one quarter miles, with Newport nearly equi-distant from either terminus. Suppose further, that the road from Newport to Dexter, a distance of 14 miles, is built, we thus have the whole machinery complete, which it is said is, so greatly to enhance the commercial prosperity of Bangor. Does it follow from this, either as a natural or commercial consequence, that all products reach these roads, on their way to a market are to gravitate towards Bangor by and from necessity; and that Bangor men are alone to enjoy in exclusive advantage, all the profits arising from purchase and sale and storage and freight &c. of such products. It seems to me to be very far from a demonstrated certainty, that this is true; for, from Newport, the point at which the lateral road intersects, a choice of direction present itself, and the party interested will avail himself of which soever way will most promote his private interest or convenience, and this is true, whether an article is seeking its way out of, or into, the State. If a merchant at Newport or Dexter, has on hand for instance 1000 bushels of oats, which he designs for a market when those oats are at the depot in Newport, ready to move towards a sale, the owner first finds the price at Portland or Boston and at Bangor, and if the price at either Portland or Boston, is sufficiently beyond that at Bangor, to pay the additional freight and leave him a cent or two or more per bushel, as a profit for sending them in that direction, they will most assuredly do so, and so of all other articles; and of freight coming into the country the tendency would be stronger against Bangor. Merchants having light goods or commodities in Boston, designed for Dexter and vicinity, would adopt that course in getting them home most conducive to their interests, and if the saving of time and consequent earlier receipt of the goods would pay the difference in transportation by railroad all the way, rather than by freightage to Bangor and thence to Dexter, they would so order them, and in that event our freighters and store-house keepers and wharf owners, are surely injured, for the obvious reason that such merchandise would not visit Bangor at all. And that such is the tendency of things, is proved by the fact that since steam-vessels have been used, the lighter kinds of freight are usually sent by them, the rapidity of the transit compensating for the additional expense, and it is no less true of railroads. It is true as a matter of course, that all business done on said road by parties in the interior, would be done solely to their own interests, regardless of the influence of such operations upon the city of Bangor.

I have said thus much, only for the purpose of showing by illustration, the fact, that if the road goes by Newport, you do not make the "country" tributary to the city, one mill further than its interest will voluntarily assume. But assuming for the argument' sake, that all the increased trade is to follow to Bangor, does it also follow that ruin, dire and disastrous, will ensue upon our city, unless the road is tapped at Newport. Let us see. You tap the road there for the purpose of opening more country, to bring its business to the trunk line and thence to Bangor, and the exact point you would intersect in Newport, is somewhere near what is known as "Spaulding's Corner." Now suppose that the trunk line takes the Unity route, by extending your branch road from Spaulding's to the trunk in Dixmont, a distance of only eight miles additional, you have all the tributary advantage of the "interior" you before had, and also of the additional country through which the branch extends, and the prospective increase of country trade for Bangor, is still obtained.—Now, then, if Bangor can be saved in its anticipated trade, as we see it may, there is surely no reason why the main line should go to Newport, unless other considerations should so determine. If that route has other and decisive reasons in its favor over any other line, why, of course, it should go there. But of this let us see. As I have already remarked, the theory of the increase of trade is the great and leading reason in favor of that route; and perhaps gentlemen are wise, when they limit their logic in its favor to that idea, for it may be found very hard upon any other base of argument to make a show in its behalf. An objection suggesting itself against the Newport way, is the very natural one that we do not desire to go round a curve when we can cross its base and reach the same point of termination, at a less consumption of time and smaller distance. Scientific survey shows the distance by Newport, to be 58½ miles; by Unity, 49½ miles, making a difference in favor of the way by the latter place, of five miles, and a line nearly or quite as practicable to build, thus saving an amount of distance sufficient—to within three miles—build the extended branch from Spaulding's to Dixmont.

Assuming, as now we may, that the increased trade can as well be had by the Unity line as by the Newport way, what are the considerations that would urge the construction of the road on the southern line. Some of them are obvious to every one, at a glance. The diminution of distance and the consequent saving of time, for all time to come for every person who travels the road, are among the least important. Saving of expense in the construction of the whole road and in the subsequent repair of the extra length, and the annual taxes on the excess of road, equal probably to taxes on $100,000 to 120,000, and are reasons which will commend themselves to the financial prudence of shrewd men, to say nothing of the additional cost of running trains every day, five miles further than is necessary. These are considerations worthy of thought, with men prudently seeking opportunities of investment, and will influence them unless they are so far excited, as was a prominent friend of the Newport road, a day or two since, when he said he "didn't care a d——n whether the stock paid or not, the road by Newport must go, for the interest of Bangor citizens was the only thing to be regarded; stockholders must look out for themselves." There are, however, other reasons existing in behalf of the southern or Unity way, which to my mind, are of insuperable force. One of the first objects to be regarded in the building of a railroad, is so to locate it, as that it will occupy a line of country in such a position as will forever exclude the building of a parallel or rival road, and exclude the apprehension that one may be built, and at the same time give to the existing road, the greatest possible amount of business. Building the contemplated road from here to Waterville, on the southern line, gives you just the exact location to accomplish both of these objects; for occupying as it does, as near an air line direction as any road well can, it at once precludes the idea that any rival interest can ever be established. While carrying the line by the way of Newport, not only leaves the apprehension of a rival road forcibly existing, but from the state of feeling in railroad matters now operating in the State, raises a very strong probability that a direct and competing road would, at no very distant day be constructed.

Again, build this road to Unity, and having secured the nearest possible way of communication between Bangor and Waterville, we are in the position hereafter, if other roads are built, either from Belfast, or from Augusta, to necessarily subject those roads to a junction with our road, and thus reap all the advantage which such a connection must bring to our road from their necessity to use it. Belfast may connect at Unity, or it may build its road in a more easterly direction and connect at a point in the road some thirteen miles this side of Unily. The last named route, will probably be found the most feasable for their road. If so, it of course will be more for the interest of our road. If the Augusta road is projected east, it would of course stop at Unity, if the Bangor and Waterville road goes to that place and difference in guage can be obviated by a third rail or by change of cars, as the interests and contracts of the parties may determine. All these things can and ought to be done, and I think there is no danger that Bangor will suffer a dollar, if they are, and to this conclusion, Mr. Editor, I think you will come, when you take the whole matter under consideration.—One more matter, and I leave this subject. In building railroads, we should always have in view, interests which coming time may develope. The project of the N. A. & European Railway, is assuming the shape of a fixed certainty at no distant day in the future, and to that certainty we should conform in our action, if by it we do no injury to ourselves. That great thoroughfare of nations, will of course, want the least possible distance, and if our road from here to Waterville, is on the air line, they will have nothing further to desire in that behalf, for a connection. If on the contrary, we crook the back of our line, no matter however graceful the curve may be, there will be danger that the interest of that road and the Augusta road will combine, to straighten out the crook, by building on the direct route. Should such an event happen, where would be the interests of Bangor in the Waterville road; what condition would its stock-holders be in?—Wisdom would seem to require a due deliberation on this matter, before any final action is had, and I hope such will be the case.

A. CITIZEN.

LEGISLATURE OF MAINE.

IN THE SENATE.

AUGUSTA, March 15.

Finally passed—Act to increase the capital stock of the Union Bank; to incorporate the Searsport Bank; also the Bank of Winthrop; to revive the charter of Orono Bank; to increase the capital stock of the Canal Bank, Portland.

Mr Euton, from the committee on Railroads and Bridges, reported a bill to incorporate the Dexter and Newport Railroad Co.

IN THE HOUSE.

Mr Nadeau of Hancock plantation introduced a resolve for the support of a school in the tenth district of the Madawaska plantation. Referred.

Mr Crosby of Embden introduced an order granting the committee on railroads and bridges until the 24th to make their final report. The order was opposed by Messrs Sewall, and Joy of Limington, and advocated by Messrs Smith of Gulais, and Crosby. Mr Morse moved to lay it on the table. Mr Hill advocated the order. Mr Fessenden was in favor of giving a hearing to all petitioners. The order was laid on the table.

Mr Fessenden of Portland called up the bill concerning railroads, being the special order. The question pending was on an amendment offered by Mr Hill of Bangor to the 7th section.

Mr Titcomb of Kennebunk offered an amendment to the amendment, which was accepted by Mr Hill.

The section authorizes the County Commissioners to regulate the crossing of County roads by railroads, and some cases to prohibit their crossing.

Mr Morse opposed the section and the amendment.

Mr Fessenden explained the operation of the amendment.

Mr North opposed granting to County Commissioners such sweeping powers. It would mingle in the elections of County Commissioners.

The discussion was continued by Messrs Hill, Fessenden, North, Chapman and Tabor. Mr Tabor moved to lay the bill on the table. Negatived.

Mr Wilson of Wayne advocated the provisions in question.

Mr Morse opposed the grant of power to the Commissioners to prohibit railroad crossing a road under any circumstances. He would prefer Commissioners appointed by the Governor, rather than a local board. He moved to strike out a part of the pending amendment, but subsequently withdrew his motion, and opposed the whole amendment.

Mr Sewall of Oldtown advocated giving the powers to the County Commissioners, and defended that board of officers as now elected by the people.

The amendment was adopted.

Mr Hill of Bangor moved to amend so as to require the railroad company, before commencing work, to fence each side of the road across farms and keep the fences in repair. Adopted.

Mr Chapman of Damariscotta, moved to amend the 10th section by requiring notice before claiming damages, for trespass by railroad companies, which was modified so as to give the notice within sixty days after the damages sustained. At the suggestion of Mr Hill, Mr Libbey moved to amend so as to require the notice to be in writing, and to state the amount of damages claimed—withdrawn.

Mr Paine of Hallowell, moved to strike out the 20th section, which allows the Company to change their location until the road is completed, agreed to.

Mr Joy of Limington, moved to strike out the 22d section, which allows the substitution of the steam whistle, for the ringing of the bell, agreed to.

Mr Hill moved to amend so as to allow the Clerk of Courts, to notify the parties of damages awarded to them—agreed to.

Mr Stevens of Greene moved to add new sections, one requiring the Company to post up in June, a tariff of rates of freight, and adhere to it for the year, the second in regard to fencing and the third for the erection of farm crossings, cattle guards, &c.

Mr Fessenden said the amendment has been examined by the Judiciary Committee, unanimously rejected.

Mr Stevens explained the object of the amendment.

Mr Hill advocated the first section of the amendment, and Mr Fessenden replied. Mr Sewall was in favor of the principle of the proposed section, but doubted the power of the Legislature. The question was ordered to be taken separately, on the different sections of the amendment. The first section was amended and adopted.

The second section of the amendment was adopted. The third section was opposed by Mr Fessenden, and explained by Mr Stevens. After further debate, the section was rejected.

The bill was further amended on motion of Mr Fessenden, and laid on the table.

CONGRESS.

Extra Session of the Senate.

WASHINGTON, March 15.

The Senate met and immediately went into executive session.

After the Senate had spent two hours in Executive session, the doors were opened, when Mr Clayton resumed his remarks on the Bulwer treaty. In the course of his speech he said that the British government is willing to maintain the treaty to its fullest extent, and adverted to several facts in support of the assertion. He then referred to Mr Douglas's speech and commented on it at length. In alluding to the annexation of Mexico, when that event took place the days of our republic were numbered. The people of that country were educated in the belief that slavery was a curse, and when we give them privileges of electing Senators and Representatives to Congress, and trust them to make peace and war for us, we have no guarantee that this privilege will not be abused, for history shows us that they are incapable of self government.

He was for this and other reasons, opposed to annexation. We have land enough—a hundred million acres on which the white man has never trod. We do not need that of Mexico. The honor of the country is more valuable to us than all the soil which Mexico contains. There was a sentiment in the inaugural of the President which met his unqualified admiration. Its long suit was, that his administration should leave no blot on the country's record, and that there should be no act of his which could not challenge investigation before the civilized world." If the President adhered to that glorious expression, it would disarm opposition and meet every where with warm friends.

A short discussion ensued between Messrs. Mason and Clayton.

Mr. Douglas obtained the floor, when the Senate adjourned.

1000 Dollars Reward!

ONLY 25 AND 37½ CENTS A BOTTLE. 1000 dollars will be paid for a compound of Roots, Herbs and Barks, that will cure and give satisfaction to as many people of all classes, ages and sexes, always doing good, and never hurt, as LANGLEY'S COMPOUND Wild Cherry bark, Dandelion root, Dock root, Prickly Ash bark, Thoroughwort, and Rhubarb, and Herb Bitters, and cure as many complaints of the Jaundice, Liver Complaint, Indigestion, Costiveness, Headache, Pile on the Stomach, Sick, Dizzy Headache, Piles, Rheumatism, Coughs, Colds, Weakness, Loss of Appetite, &c., &c., and leave it to all the people.

Sold, Wholesale and Retail, by all dealers in medicine in Bangor,

H. G. Farrell's Arabian Liniment

TRIUMPHANT OVER DISEASE.

This truly great medicine still goes on, conquering disease, and snatching many a poor powerless victim from the grave. By its powerfully stimulating, penetrating and anodyne qualities, it restores the use of limbs which have been palsied for years, and by its singular power of reproducing the animal fluid or joint water, it cures all diseases of the joints with surprising rapidity. For rheumatism, and affections of the spine and spleen it has proved itself a *specific*, and for affections of the lungs, liver and kidneys, it is a most valuable and powerful auxiliary; also, for all diseases of the glands, scrofula, goitre or swelled neck, etc., etc. And indeed for almost any disease where an external application is required, this medicine stands unparelled, Sprains, bruises, cramps, wounds, chilblains, burns, etc., are speedily cured by it.

From the Hon. Peter Menard, one of the oldest settlers in Illinois.

It gives me pleasure to add my testimony to the virtues of your great medicine. One of my blooded horses had a swelling over the cap of the knee, about the size of a hen's egg. Some said it was a strain and some that it was the joint water from the knee, and could not be cured. I tried oil cedar on it, and all the liniments and ointments, and they did no more good than water. I then, by persuasion of my friends, tried H. G. Farrell's Arabian Liniment, and I was happy to find it take effect after a few days, and it finally cured the noble animal entirely. I think it is decidedly the greatest liniment for horses as well as human flesh, I ever knew.

Tremont, Tazewell co., Ill., March 18th, 1849.

PALSY OR PARALYSIS.

Thadeus Smith, of Mudd Creek, Tazewell county Illinois, says: "I had lost the use of my arm for more than a year, by palsy or paralysis; the flesh had entirely withered away, leaving nothing but skin, muscle and bone. I tried all the best doctors, and all the remedies I could hear of but they did no good. I then commenced the use of H. G. Farrell's Arabian Liniment, and a few bottles entirely cured me, and my arm is now as strong and fleshy as the other: it is also first rate for burns, sprains and bruises.

LOOK OUT FOR COUNTERFEITS.

The public are cautioned against another counterfeit, which has lately made its appearance, called W. F. Farrell's Arabian Liniment, the most dangerous of all the counterfeits, because the having the name of Farrell, many will buy it in good faith, without the knowledge that a counterfeit exists, and they will perhaps only discover their error when the spurious mixture has wrought its evil effects.

The genuine article is manufactured only by H. G. Farrell, sole inventor and proprietor and wholesale druggist, No. 17, Main Street, Peoria, Illinois, to whom all applications for Agencies must be addressed. Be sure you get it with the letters H. G. before Farrell's, thus—H. G. FARRELL'S—and his signature on the wrappers, all others are counterfeits.

Sold by INGRAHAM & FULLER, wholesale and retail, Bangor. Also by R. K. Ilsley, Oldtown; French & Hamilton, Dexter; Nelson Foster, Etna; Ilsley & P. O. Flaherty, Houlton. And by regularly authorized agents throughout the United States.

☞ Price 50 and 90 cents, and $1 per bottle.

AGENTS WANTED in every town, village and hamlet in the United States, in which one is not already established. Address H. G. Farrell as above, accompanied with good reference as to character, responsibility, &c.

PATENT

Extension Window Sash.

THE subscriber is prepared to furnish and put in the fixtures for the Patent Window Sash. This Sash can be taken out of the frame without removing the stop strips—it is made tight so as to dispense with the necessity of double windows—the upper and the lower sash can be kept in any position, when raised or lowered, without weights or catches. It may be applied to old sashes—it is very simple and cheap.

☞ Rights for the several towns in this county are offered for sale.

☞ Those desirous of obtaining the same as a home, can do so by calling on W. A. DRESSER at his store, Exchange street, where a model is exhibited, or at my shop on the upper corner

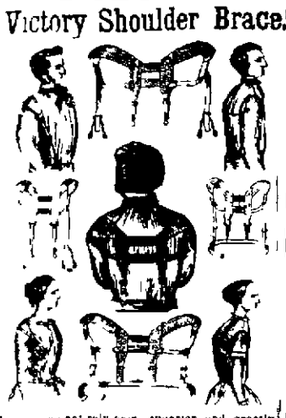
BAXTER'S
Victory Shoulder Brace!


I can confidently offer one superior and greatly improved article which can be worn with or without the suspender attachment. It is light and exceedingly strong and equally adapted to the wear of either sex and so constructed as not to bind under the arm which has been one serious objection to nearly all the Braces that have heretofore been offered. I have instructed upon anatomical and physical principles and is highly approved of as a conducive to health and gracefulness of form, and far superior to the old exercising articles formerly worn as Braces in regard to simplicity, durability and comfort.
The expansion shoulder Brace is to throw back the shoulders expand the chest and retain the form in an erect position thereby establishing a free and active circulation of air through the lungs which is a required health in them must be perfectly expanded in every part with atmospheric air which comes in contact with the blood as it is driven from the heart to the lungs by every pulsation and that organ and consequently changed from a dark color and impure state to a scarlet red and is again returned to the heart and carried through the whole system to repair the waste of the body. Keeping the vitality of the parts and of the system fully expanded with pure the blood is purified, and the whole system is injured by the exercise, hence the necessity of adopting some correct and fully expanded so as to cause as much as possible
Mastery of figure is almost entirely overlooked and neglected by every class of people. A vast number per ons contract the habit which creeps on them in a most fashionable manner of stooping all over the weight of the shoulders to pressed inward upon the collar bones breast bone and which mutually contracts the chest compresses the lungs heart and stomach (the most important of the human system) and thus brings on some of the most fatal diseases such as pulmonary consumption heart disease curvature of the spine crooked limbs, ill shapen shoulders and other disagreeable situation of smiting all of which might be prevented with little attention and correct position of the body at all which might be prevented with little attention and correct position of the body at all times.

Jan J SHAW, Proprietor.

THE GREAT REMEDY FOR

Coughs, Colds and Consumptions.

The VEGETABLE PULMONARY BALSAM is probably without a parallel in having, during a period of more than Twenty-five years, fully maintained the high reputation which it has acquired for CONSUMPTIVE COMPLAINTS and all DISEASES of the LUNGS, THROAT and CHEST. It has been used with probably greater success than any other article known, and Physicians who have had an opportunity of witnessing its highly salutary effects, recommend it as a safe and very efficacious medicine, equal if not superior to any other prescription for the above complaints within their knowledge. The [illegible] of this Medicine was a private recipe of a distinguished Physician in one of the neighboring States, and was preserved by an individual to whom it gave the most astonishing relief. It is composed of vegetables, and used according to directions, must be perfectly safe.

From Messrs. Allen & Co., Merchants, Cincinnati.—Those persons who have used the Vegetable Pulmonary Balsam, uniformly speak of it as a valuable medicine, [illegible] the quantity sold, notwithstanding the number of other preparations used for similar complaints, we place it first on the list.

Respectfully, &c, ALLEN & CO.

The Editor of the Seneca Falls Courier, says,—"We have had occasion to witness the good effect of the Vegetable Pulmonary Balsam in our family, in case of a young lady who has been entirely cured of Consumption by the use of it, and also in severe coughs and colds and cheerfully bear testimony to its being a safe, convenient and very efficacious medicine in cases of that description."—Ed Courier.

A Clergyman from Philadelphia writes, that he has been in the habit of using the Vegetable Pulmonary Balsam for himself and family, for the last thirteen years, and also of recommending it to his friends and considers it an invaluable remedy for all pulmonary complaints.

"For the last five years of my practice I have had the satisfaction to witness the beneficial effects of Vegetable Pulmonary Balsam in many cases of obstinate cough and other affections of the lungs. I would therefore cheerfully recommend its use in all complaints of the kind as being equal, if not superior, to any other medicine in my knowledge.

Dorchester, N H TRUMAN ABELL, M. D."

BEWARE OF COUNTERFEITS and IMITATIONS! such as Carter's Compound Pulmonary Balsam, American Pulmonary Balsam, and others, in part wearing the name! Enquire for the article by its whole name the

VEGETABLE PULMONARY BALSAM,

and see that it has the written signature of Wm. John[illegible] upon a yellow label, on the blue wrappers. Each bottle and seal is stamped "Vegetable Pulmonary Balsam."

Prepared by REED, CUTLER & CO., Importers and Wholesale Dealers in Medicines Paints, Chemicals and Dye-Stuffs, 33 India Street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally.—For particulars and recommendations see a pamphlet accompanying each bottle. Price 50 cents. For sale in Bangor by INGRAHAM & FULLER and WILLIAM MANN.

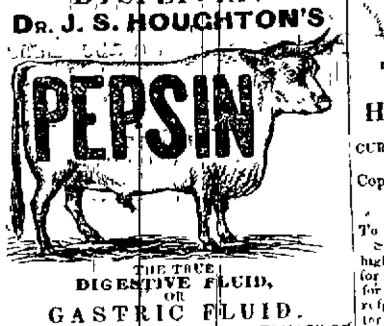
Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

ANOTHER SCIENTIFIC WONDER!

GREAT CURE FOR

DYSPEPSIA!

DR. J. S. HOUGHTON'S



THE TRUE DIGESTIVE FLUID, OR GASTRIC FLUID.

Prepared from RENNET, or the fourth STOMACH OF THE OX, after directions of BARON LIEBIG, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia, Pa.

DIGESTION. Such is the true meaning of word PEPSIN. It is the chief element, or Great Digesting Principle of the Gastric Juice—the solvent of the Food, the Purifying, Preserving, and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming a TRUE DIGESTIVE FLUID, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it.

This is NATURE'S OWN REMEDY for an unhealthy Stomach. No art of man can equal its curative powers. It contains no ALCOHOL, BITTERS, ACIDS or NAUSEOUS DRUGS. It is extremely agreeable to the taste, and may be taken by the most feeble patients who cannot eat a water cracker without acute distress. Beware of DRUGGED IMITATIONS. Pepsin is NOT A DRUG.

Half a teaspoonful of Pepsin infused in water, will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.

SCIENTIFIC EVIDENCE

The Scientific Evidence upon which this remedy is based is in the highest degree Curious and Remarkable.

Call on the Agent and get a Descriptive Circular, gratis, giving a large amount of Scientific Evidence, from Liebig's Animal Chemistry; Dr Combe's Physiology of Digestion; Dr. Pereira on Food and Diet; Dr John W. Draper, of New York University; Prof. Dunglison's Physiology; Prof. Silliman, of Yale College; Dr Carpenter's Physiology, &c., together with reports of cures from all parts of the United States.

PEPSIN IN FLUID AND POWDER

Dr. Houghton's Pepsin is prepared in Powder and in Fluid Form—and in Prescription vials for the use of Physicians. The Powder will be sent by Mail, free of Postage, for One Dollar, sent to Dr. Houghton, Philadelphia.

OBSERVE THIS!—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, Pa. Copy right and Trade Mark secured.

Sold by all Druggists and Dealers in Medicines—Price ONE DOLLAR per bottle.

Agents—INGRAHAM & FULLER, GEORGE W. EMERSON, Bangor, wholesale and retail. [illegible] Augusta, W. O. Poor, Belfast.

Oct 15 1852 4taw & 1y

FOR [illegible] Old and Fresh Wounds, Fever Sores, Scald Head, Sore Legs, Sprains, Bruises, Inflammations, Sore Breasts, Rheumatic Pains, Biles, Piles, Corns, Burns, Scrofulous and other Tumors, Painful Swellings, Chilblains, Ulcerations of every kind

This Salve is made according to the INDIANS directions, who make more use of this one article than of all others.

It is emphatically the INDIANS PANACEA, to which they have recourse in all Cuts, Wounds, Sores, Ulcers, Sprains, Bruises, Burns, &c.

The proprietor offers it to the public as an Infallible Remedy for all the cases in which it is above recommended.

WHITE SWELLINGS

Of the most obstinate nature, where amputation seemed the only course remaining untried, have been quite cured by the Indian Salve. Many will testify to its wonderful efficacy in these dangerous cases, and in all other Scrofulous and Tumors.

TUMORS AND BILES

Are by this Salve freed from pain and hastened to a cure. The fetid matter in them is freely and entirely discharged, and healthy flesh created, and a speedy cure effected.

SCALD HEAD CURED.

The Indian Salve is a sure cure for Scald Head, and all eruptive Sores. It restores the Scalp to a Soft White State, and promotes a healthy growth of the hair.

CORNS ERADICATED.

The Indian Salve far surpasses all Corn Plasters ever invented. A few applications are sufficient to cure the worst cases. Try it.

SORE BREASTS

Are cured by a few applications.

FEVER SORES OR ULCERATED LEGS

Are relieved by the Indian Salve more surely and more effectually than by any other Medicine. All who suffer with this complaint will do well to try it. IT IS THE BEST REMEDY KNOWN FOR THE PILES. Swelled Joints, Rheumatic Pains, Contraction of the Cords are greatly benefited by it. It is easy to use and always Cures. No family should be without a box to use in case of accidents, such as Cuts, Bruises, Sore Lips, Chapped and Cracked Hands, Burns and Scalds, Frost Bites, Chilblains, Piles, Flesh Wounds, &c. Try it and you never will be without it, because the good it does will be felt at once.

Price 25 cents per box, with full directions for use.

DR. KINNE'S

Magneto-Electric Machine.

CERTIFICATE.—I have examined Dr. Kinne's Magneto-Electric Machine and consider it well adapted for medical purposes, possessing the advantage of operating without either chemical solution or tubes and being capable of being wound up like a watch, and giving a continued action, of an intensity easily regulated, for nearly half an hour, I regard it as superior to any machine now in use. LAWRENCE REID, Professor of Chemistry in New-York Hospital, Dec 2, 1851.

The above machines are for sale by

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS.

CURE OF A DISORDERED LIVER AND BAD DIGESTION.

Copy of a Letter from Mr. R. W. Kirkus, Chemist, 7, Prescot Street, Liverpool, dated 6th June, 1851.

To Professor Holloway,

SIR,—Your Pills and Ointment have stood the highest on our sale list of Proprietary Medicines for some years. A customer, to whom I can refer for any enquiries, desires me to let you know the particulars of her case. She had been troubled for years with a disordered liver and bad digestion. On the last occasion, however the virulence of the attack was so alarming, and the inflammation set in so severely, that doubts were entertained of her not being able to bear up under it; fortunately she was induced to try your Pills and she informs me that after the first, and each succeeding dose she had great relief. She continued to take them and although she used only three Boxes she is now in the enjoyment of perfect health. I could have sent you many more cases but the above from the severity of the attack, and the speedy cure I think speaks much in favor of your astonishing Pills.

(Signed) R. W. KIRKUS

AN EXTRAORDINARY CURE OF RHEUMATIC FEVER IN VAN DIEMEN'S LAND.

Copy of a Letter inserted in the Hobart Town Courier, of the 1st March 1851, by Major J. Walch.

Margaret M'Connigan, nineteen years of age, residing at New Town, had been suffering from a violent rheumatic fever for upwards of two months which had entirely deprived her of the use of her limbs; during this period she was under the care of the most eminent medical men in Hobart Town and by them her case was considered hopeless.—A friend prevailed upon her to try Holloway's celebrated Pills which she consented to do, and in an incredible short space of time they effected a perfect cure.

CURE OF A PAIN AND TIGHTNESS IN THE CHEST AND STOMACH OF A PERSON 84 YEARS OF AGE.

From Messrs. Thew & Son, Proprietors of the Lynn Advertiser, who can vouch for the following statement—August 2d, 1851.

To Professor Holloway,

SIR,—I desire to bear testimony to the good effects of Holloway's Pills. For some years I suffered severely from a pain and tightness in the stomach, which was also accompanied by a shortness of breath that prevented me from walking about. I am 84 years of age, and notwithstanding my advanced state of life, these Pills have so relieved me, that I am anxious that others should be made acquainted with their virtues. I am now rendered by their means, comparatively active, and can take exercise without inconvenience or pain, which I could not do before.

(Signed) HENRY COE, North street, Lynn, Norfolk.

These celebrated Pills are wonderfully efficacious in the following complaints.

Ague	Fever and Ague	Scrofula, or King's Evil
Asthma	Fits	Sore Throats
Bilious Complaints	Gout	Stone and Gravel
Blotches on the Skin	Head-ache	Secondary Symptoms
Bowel Complaints	Indigestion	Tic Douloureux
Colics	Inflammation	Tumours
Constipation of the Bowels	Jaundice	Ulcers
Consumption	Liver Complaints	Venereal Affections
Debility	Lumbago	Worms of all kinds
Dropsy	Piles	Weakness, from whatever cause
Dysentery	Rheumatism	&c. &c.
Erysipelas	Retention of Urine	
Female Irregularities		

Sold by the Proprietor, 244 Strand, (near Temple Bar,) London, and by all respectable Vendors of Patent Medicines throughout the British Empire, and by those of the United States, in Pots and Boxes at 37½ cts.—87 cts. and $1 50 each. There is a very considerable saving by taking the larger sizes.

Wholesale by the principal Drug Houses in the Union, and by
